

Dear [client],

Thank you for taking the time to speak with xx from Forkbiz.

We know that reliable equipment is crucial for your business.

Our team of frontline support specialists is dedicated to keeping your machinery working in top condition with minimal downtime.

Whether you require a repair and maintenance service, a wide selection of additional parts, or affordable rental options, Forkbiz offers a one stop shop for all your forklift and heavy equipment needs.

Based in Brisbane and Sydney, our qualified mechanics and diesel fitters specialise in repairing and maintaining Hyster/Yale, Linde, Toyota, Mitsubishi, Cat, and Manitou forklifts and tow tractors, as well as Hyster and Omega Empty/Laden Container Handlers.

And as Forkbiz is one of Australia's largest suppliers of OEM and aftermarket forklift parts and accessories, you can be confident of being able to source the right equipment for your business, when you need it.

We are proud of our long-standing relationships with companies such as Aurizon, Graincorp, Bondor, Tarmac Timbers and Queensland Rail, who trust us with their repair and rental requirements and value our fantastic service.

We would love to visit your business and advise how you can achieve the optimum equipment uptime.

For a free evaluation of your equipment, and cost estimates for an ongoing service that suits your maintenance or rental needs, please contact the Forkbiz team now on **07 3277 3270** or **1800 367 524**.
